

SAFE ENVIRONMENT FACILITATOR TRAINING WORKSHOP

Diocesan Office of Child and Youth Protection

The Diocese of San Bernardino has partnered with CMG Connect to provide comprehensive safe environment training for adults.

Recent updates to the diocesan safe environment policy and training method require all previous Safe Environment Facilitators to renew their training and commitment. **NEW Safe Environment Facilitators are welcome!**

A Safe Environment Facilitator is assigned by the Parish Pastor/Administrator or Principal to be trained and certified by the Office of Child and Youth Protection to facilitate safe environment training at the parish or school.

Live in-person training can be offered at parishes and schools once they have certified Safe Environment Facilitators.

Please, review the guidelines in the next page for certification requirements and training workshop RSVP information.
